

Associated Response
brings its own
unique brand of
custom-made furniture
and furnishings to
designers in the
Middle East called
'kayfactor™'.

Made from a
lightweight, durable
material then treated
with a multitude of
strengthened,
decorative and
weatherproof finishes
makes 'kayfactor™'
ideal for any
indoor or outdoor
application.

The core material
is extremely versatile
allowing design,
scale flexibility and
cost effectiveness.

product information

Kayfactor™ is the brand name for custom-made, lightweight furniture and furnishings by Associated Response.

This unique approach to furniture making uses local expertise in the United Arab Emirates in its entirety from design to production. Once the material has been cut by way of computer persuaded cutters it is strengthened and then can be finished in a multitude of waterproof decorative finishes and colours suiting any environment, both indoor and outdoor.

*Enquiries for tailor-made designs are welcomed - rough sketch, Windows™ file or photographs can be used to achieve a replica.

3 steps from design to completion

product benefits

colour swatch - stone finish

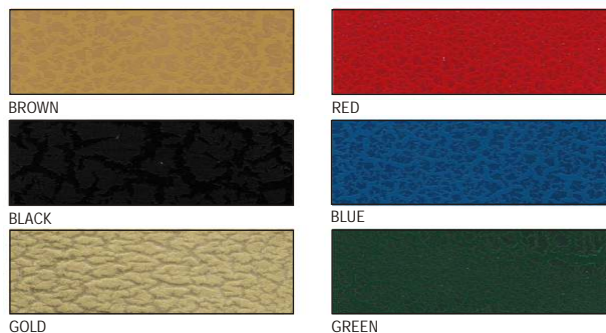

The natural stone finish is an acrylic emulsion based, highly decorative and protective finish that gives a stone like appearance. It is a flexible coating which provides excellent weather resistance to any outdoor application.

colour swatch - gloss finish

colour swatch - cracking

Cracking is a paint formulated from nitrocellulose and modified special resins. Its self-cracking property makes it an excellent cracking decorative topcoat finish. It is fast drying, durable and color retentive.

colour swatch - metallic

* Colours seen here are not accurate. Comprehensive and accurate colour swatches available on request.

kayfactorchairs

* All kayfactor products are bespoke and customised to client's specification. Finished in high-gloss paint or textured stone.
